

Nursery News

Our Learning in Nursery This Month...

We have been...

- Enjoying our topic on bears - learning about different bears from around the world, where they live, and what they eat.
- Listening to lots of stories about bears, a particular favourite of the children's - 'We're Going on a Bear Hunt'.
- 'We're Going on a Bear Hunt'- sensory play experience. Children got to feel the textures of long wavy grass, thick oozy mud, a deep cold river and a swirly snow storm - lots of great vocabulary and lots of fun!
- Celebrating the football World Cup! Learning about the countries involved.
- Playing football and practising scoring goals in the garden.
- Playing in our mini football stadium role play area.
- Keeping our tally of the scores and seeing how far each team got.

Over the next few weeks we will be learning about holidays, the airport, the seaside, under the sea, pirates and mermaids!

Thank you to all our families who came along to our art exhibition at Osterley Park! We had a great day and were very proud to display the children's beautiful artwork in such an amazing setting! We hope you enjoyed the day as much as we did.
Osterley Art Exhibition!

Please remember...

- It is essential your child comes into nursery with sun cream already applied - some children are still coming in without cream on.
- As always, our newsletters are available on our website. If you would prefer us not to use your child's photo, please let us know.
- Breakfast time - breakfast is served between 8-8.30am only. Children coming in later than this time will need to eat breakfast at home.

Dates for your diary...

- Leaver's Party on Friday 20th July, this involves only the children and parents of children who are leaving this summer. An email has been sent to the relevant parents with details.
- Bank holiday closure - Monday 27th August

Ideas to help at home

- During the next few weeks we will be learning about summer, holidays and the seaside. If you have any photos or postcards from your recent/past holidays please bring them in for our interest table display.
- Summer is a great time to explore ice and melting - add a little food colouring to water and freeze in different sized containers. Pop them in the garden in the hot weather and watch the ice melt and the colour mix together (whilst you cool down at the same time!)
